Experience

06/2023 - 08/2023

Bureau of Immigration I Magallanes Dr, Intramuros, Manila, 1002
Metro Manila
Intern

During my internship at the Bureau of Immigration's main office, I had the opportunity to work on two pivotal systems, contributing to the agency's operational efficiency and data management. I actively collaborated with the IT team, gained hands-on experience, and delivered tangible results.

Employee Record System

- Designed, developed, and implemented a comprehensive Employee Record System utilizing C# and Oracle database in the Visual Studio environment.
- Collaborated seamlessly with a multidisciplinary team to ensure intuitive integration and user-friendliness.
- Significantly enhanced data management and operational efficiency, leading to measurable improvements in managing the employees in the department.

Document Record System

- Spearheaded the development of an efficient Document Record System utilizing C#, Oracle Database, and DevExpress components.
- Responsible for designing and implementing automated processes to convert physical documents into digital data.
- Conducted thorough testing and debugging to ensure the system's reliability, meeting high data accuracy and security standards.
- Successfully streamlined the document management process, resulting in substantial improvements in data accessibility, searchability, and workflow efficiency.

Throughout my internship, I acquired valuable skills in project management, teamwork, and problem-solving. I also gained a deeper understanding of the complex challenges faced by the Bureau of Immigration and how technology can contribute to their mission. This experience has solidified my commitment to a career in Information Technology and my ability to deliver results in a professional setting.
